

Key Instant Recall Facts

Y1– Spring 2

This is our focus for this half term.

I can make doubles up to 20.

Doubles

Year 1 children need to be able to understand that 'double' is two groups of a number or an amount.

They can show what doubling means by using concrete and pictorial representations.

They can say doubles as a sentence 'Double ____ is ____'

Recognise a double as a repeated addition.

Build (with Lego)	Represent (draw)	Say	Record
		Double 1 is 2.	$1+1=2$
		Double 2 is 4	$2+2=4$
		Double 3 is 6	$3+3=6$
		Double 4 is 8	$4+4=8$
Continue until ... Double 10 is 20			

Key Vocabulary

Double

Double fact

Two groups of...

Two lots of...

Twice

Repeated addition

Take it further:

- Recognise when something is a double and when something isn't a double – sorting dominoes.
- Apply doubles know to identify further doubles e.g. knowing the can work out double 11 by using knowledge of double 10 and double 1 and adding these together to identify double 11.
- Use double knowledge when adding a near double e.g. $6+7=$ ____ .
So, $6+6=12$, so $6+7$ is one more than that, so $6+7=13$.

Top Tips

The secret to successfully embedding knowledge is practising it **little** and **often**. Regularly return to the skills and incorporate into simple games and other activities.

Ideas:

Start by developing this knowledge through the use of concrete equipment (Lego, pasta, beads, buttons, small toys, fingers etc.). Think about how these objects are placed to aid the quick identification of the double. Numicon shapes would also be a useful resource.

Then progress to drawing pictorial representations of the double - drawing circles, squares or lines. Again, think carefully about how the drawing is presented to aid quick identification of the double.

Finally, find ways for children to be able to rapidly recall the double.

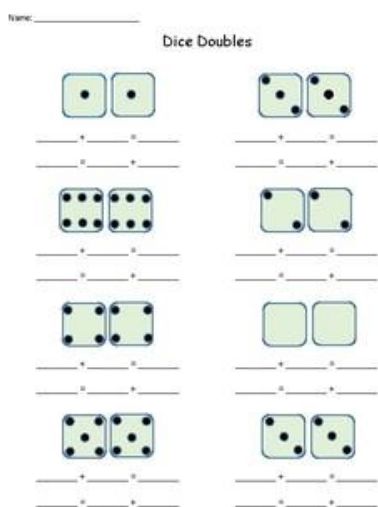

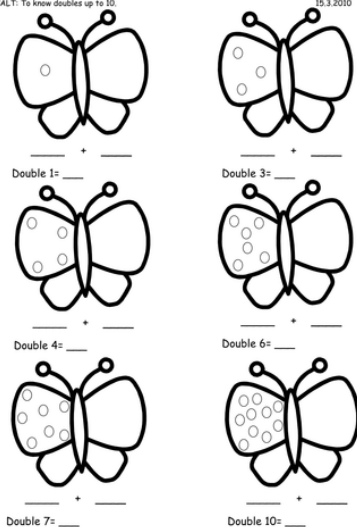

Always begin each stage in sequence and then work out of sequence.

Game and activities:

- Dominoes
- Roll a dice and double that number.
- Doubles bingo
- Create your own chant (see below) or a song

WALT: To know doubles up to 10

15.3.2010

P print and laminate

Doubles Dice Game

Instructions: Roll a 6-sided dice and double the number. Find that number on the board and cover it with a counter. The first player to get 3 counters in a row is the winner.

2	6	4	12	10
8	10	8	12	6
2	4	10	2	12
8	12	6	8	4
6	2	4	12	10
4	10	8	6	2

SLIDES AND LADDERS

Adding Doubles

Directions: Roll a die. Move your marker that many spaces. Find the sum. If you are correct, you can stay. If you are not correct, move back. If you land on a ladder, climb up. If you land on a slide, slide down. The first one to the end is the winner.

END	28 9+9	27 7+7	26 5+5	25 8+8
20 4+4	21 6+6	22 3+3	23 0+0	24 9+9
18 8+8	18 3+3	17 1+1	16 4+4	15 10+10
10 2+2	9 9+9	8 7+7	13 5+5	12 6+6
9 6+6	10 10+10	7 2+2	11 4+4	10 7+7
START	1 1+1	2 5+5	3 8+8	4 3+3
